

Vehicle type and platform identification chart

Model Years 1998 and up

Volvo Service Literature often refers to / identifies a vehicle's "type", not its "model". For example, the 1999 - 2006 Model Year S80 is type "184". You may also see the designation "P2" or "Series", this refers to a platform type or vehicle family.

NOTE: If a document states "P1X" or "5XX" as an example, it will apply to all models within the platform type. "54X" will apply to the "544", "545" and "542" models. "X" represents variable data.

The following will clarify the vehicle type and platform designations for models produced since 1998. Should you need information for older models please refer to RTJ 19245 - Vehicle type and platform identification.

40 Series		
Model	Model Years	Type
S40	2000 - 2004	644
V40	2000 - 2004	645
