## DiCE Firmware update procedure

Copy the file SetupDiCE.zip to the local computer. Unzip the file and change the name of the file SeupDiCE.xxx to SetupDiCE.exe and run the file. This file will install DiCE on the computer.

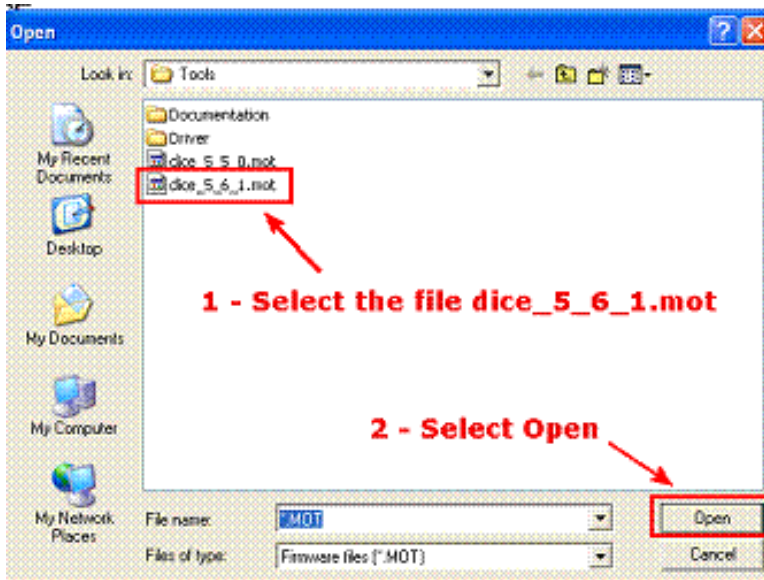

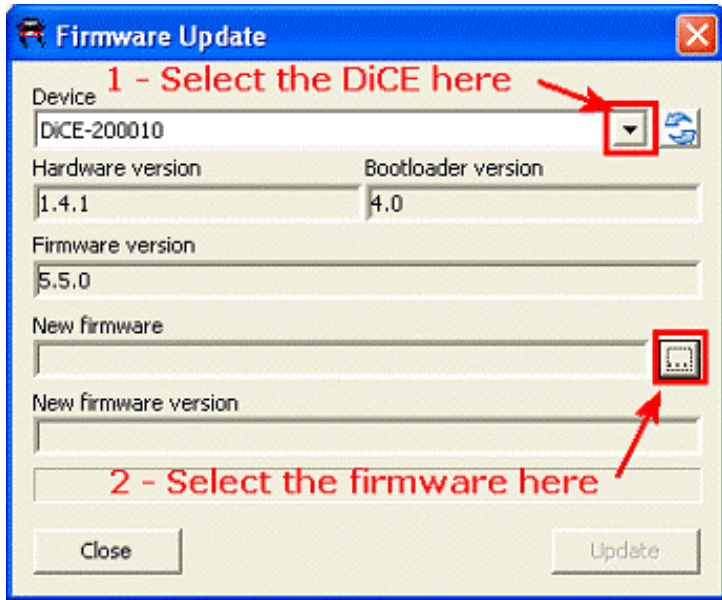

Then follow these steps for each DiCE unit:

1. Connect power supply to the DiCE unit.
2. Connect a USB cable between the DiCE and the computer.
3. Select Start → All Programs → DiCE
4. Select the application "DiCE Firmware Update".
5. Follow the instructions described in the pictures below:

DiCE Firmware update procedure	1	2011-05-31

The status "Device update OK!" will be shown as seen below when the update has been successful:

The DiCE unit is now updated.
